# AHA-9800 SERIES

The 9800 series are spring trimming machines, making a clean square cut without damaging the next coil of the spring. The machine has a very short cutting time  $>0,3$  s.

The 9800 tools are very easy to handle, quick shift of tools when changing dimension, or change of turn. The machine is operated by foot switch.

The 9800 series are mounted on a trolley together with pump unit and electrical equipment, ready to go when connected to electricity.

The angle of cutting head and the guide for the spring can easily be shifted to suit different springs and operators.

The 9800 tools are CE marked

The 9800 series consists of 3 machines for  $\phi 8$ , 12 and 16 mm wire and tensile strength of  $1800 \text{ N/mm}^2$ .

We can also design spring trimming machines to meet your specific demands.

Standard dimensions:

Length 1100 mm

Width 700 mm

Height 800 mm (to surface of table)

Weight ~110 kg

TEN0003

Subject to alteration without previous notice.
